

Wakefield Booked By Prexies As First Big Time Grid Rival

The respective athletic directors of Alexandria's George Washington High School and Arlington's Wakefield High School, A. E. (Rasty) Doran and Milo Sonen, met yesterday at the Arlington school to work out a football agreement between the two schools.

According to Doran, the Wake-

field Warriors will replace the Maroons of Episcopal High on the George Washington grid slate in 1955 and 1956 with the first meeting being slated for Arlington County at Washington-Lee's stadium.

The second meeting, in 1956, will be played locally at the GW stadium.

Wakefield is expected to become a Group I school in the Virginia High School League within the next two years and along with Anandale will give GW nearly an all-league schedule in the future.

This year Wakefield played Anandale, Mount Vernon and George Mason in varsity competition while they also met and defeated the GW

junior varsity and played to a 6-6 stalemate with the undefeated Washington-Lee jayvee gridders.

"We're looking forward to a long association with Wakefield's athletic teams in the future and are happy to have them on our 1955 football schedule," stated Doran today.
